## **Bennett Pump Company and Tyree Company announce distribution agreement for Northeast US**

Bennett Pump Company, Spring Lake Michigan and Tyree Company, Farmingdale New York, announced a distribution agreement today. The agreement is designed to have Tyree sell and service the entire Bennett Pump line of retail, commercial and DEF dispensing equipment including the new PCI certified Pacific dispenser in the northeast US region.

Alan Levine, VP at Bennett, says that Bennett and Tyree will be strong partners in that marketplace and will allow marketers a terrific alternative for a high quality dispenser line. "We have a great line of retail and commercial dispensers. With Tyree's strong sales and service network we expect to have a significant impact in the region."

"Tyree is pleased to grow our organization with a company like Bennett. Bennett has an outstanding reputation and is focused on growing their business in our geographical area. Bennett shares our values and our dedication to providing our customers with exceptional service" says Stephen Tyree, CEO of Tyree.

About Bennett Pump: Bennett Pump has been in business since 1919. Based in Spring Lake Michigan, the company manufactures a complete line of retail, commercial and DEF dispensers including the Pacific retail line. The products are known for engineering innovation, high-quality and low cost of ownership. For more information please see the company web site at [www.bennettpump.com](http://www.bennettpump.com) or contact Alan Levine, VP at 727-491-3232 and [alevine@bennettpump.com](mailto:alevine@bennettpump.com).

About Tyree Company: Founded in 1930, Tyree has evolved over the past 75 years from a family-run construction company into a major, multi-dimensional petroleum services, and environmental firm whose sphere of influence encompasses eight offices in the United States. The diversification enjoyed by the firm is attributable to Tyree's quality service-oriented approach, resulting in long-term client relationships and continued growth.
